Subject: AARP Driver Safety Program: Veterans Promotion - NOVEMBER 2011

One of our volunteers in Iowa (Larry Nepl) spoke with John Bircher about a promotion that the AARP Driver Safety Program is offering during the month of November, whereby all veterans (including veterans' spouses, widows, widowers, and children) may take our classroom course for free.

We have classroom courses across the country, for which the fee (typically \$12 for AARP members and \$14 for non-members) will be completely waived in November.

John requested additional information, so I've attached the official Press Release.

We also have other materials, including sample flyers, which I'd be happy to send. You can visit www.aarp.org/veterans for more information.

Thanks, and please let me know if you have any questions.

Best,

Lindsay
