

“U.S. Marine Needs a Kidney Transplant”

Email: Posted: March 1, 2011

Please forward to all your contacts,

U.S. Marine Sgt. Jake Chadwick made it home safe from Iraq, married the girl he was engaged to, and recently became the father to a beautiful baby daughter, but he isn't receiving special veteran treatment for the one thing he needs most: [a kidney transplant](#). The family is reaching out to the military community to see if anyone with O-blood type could be a donor match for Sgt. Chadwick. Contact the Chadwick family at jvechadwick10@hotmail.com if you are willing to get tested.
