

## *Virtual Tour of a Vintage 1940s Submarine*

You may not be a Navy buff but these photos of the interior of a Vintage 1940's American Submarine are truly amazing. You can use your mouse and place it on the picture and click and drag the pictures for a full 360 degree view. You can look up at the ceilings and down at the floors and you can even zoom in on objects.

Be sure to take advantage of the 360 degree view option. It gives a greater perspective to how compact things are on a sub of this class.
